**What are your suggestions for spending the Town Centre Grant?**

- Make the Farmers market larger
- Weeds growing outside commercial premises in the town centre give an impression of neglect. If the owners of the premises cannot be persuaded to get rid of them the council should do it for them. I am amazed that some shop owners allow this to happen – can't they see it's bad for business?
- As a new resident to Burton Latimer, I think money spent the furniture and Christmas lights are the best idea
